JOHNSON INDULGED IN A CARNIVAL OF CRIME

Black Rival of Harry Orchard In Atrocious Deeds.

WAS CAUSE OF ATLANTA RIOT

Will Johnson, Hanged Friday for Assault, Made a Confession Just Before Trap Fell of Many Crimes to Sheriff Nelms.

Atlanta, June 17.—Will Johnson was the negro who caused the September riot. On the gallows Friday, with but the spring of the trap between him and eternity, the lashing of his soul as it beat against the great waves of the beyond, was too much for this "devil incarnate," as Sheriff Nelms and Solicitor Hill fitly described him, and at the last moment he confessed all.

He made three successful assaults on women, murdered two men and tried to murder another.

He assaulted Mrs. Georgia Hembree on August 15, 1906; killed Amos Moody, the Adamasville farmer, three days later, on the 18th; attempted to assault Misses Ethel and Mabel Lawrence two days after, on August 20th, and assaulted Mrs. Annie Camp in November.

Carnival of Crime.

Johnson's carnival of crimes began in Fulton county on August 15, 1906, when he assaulted Mrs. Hembree. On August 18, three days later, he murdered Amos Moody, the Adamasville farmer and robbed him. This was in the western outskirts. Then he skirted around the town and five days later made the horrible assault on the Misses Lawrence.

These assaults and murder had so aroused the whole populace that the fiend desisted in their perpetrations for awhile, but the week of September 24th, there were other reported attempts, and the Saturday night riot of September 24th last came on the city in its fury, in which 15 negroes were killed and 2 whites, and some 40 or 50 of both races injured, the injured negroes considerably outnumbering the whites wounded.

The assaults ceased then and everything was quiet till November 13. Less than two months' inaction made the fiend restless and more lustful. On that day he committed the assault on Mrs. Camp in the Blackhall district, northwest of East Point. Joe Glenn was arrested and put on trial three days later. Doubtless he might have been doomed, but the old maxim that "murder will out" intervened to put the guilty in the place of the innocent man, and Friday he paid the penalty of his crimes on the scaffold.

Confessed at Last Moment.

Johnson was hanged for the assault on Mrs. Hembree, and confessed his other crimes at the last moment to Sheriff Nelms.

Mrs. Hembree positively identified him as her assailant. She told the pardon board a few days ago there could be no middle ground; that he was the man, and if not hung they could turn him loose.

Before going to the scaffold he made a partial confession to two negro preachers, and enlarged on this confession on the scaffold, and when he stopped he told Sheriff Nelms he had not told all, and that he had committed other crimes. These he carried with him to the grave.

It is a remarkable coincidence that struck both Solicitor Hill and Sheriff Nelms that these outrages ceased contemporaneously with Johnson's arrest. He was a professional rapist, said Sheriff Nelms.

Bryce Studies Oil Industry.

Tusla, I. T., June 17.—The Hon. James Bryce, the British ambassador, spent Saturday in this field, studying the oil industry. A reception was tendered him by the people of Tusla. Mr. Bryce has studied the constitution of this new state but declines to express an opinion regarding it. At Muskogee Friday night he said: "The American people have shown ability for self-government greater than any people on earth."

GARRISON'S STRENGTH DOUBLED

Great Military Activity—Russian Capital Bristles With Troops.

St. Petersburg, June 17.—The second Russian parliament, the Associated Press is informed on ministerial authority, was to have been dissolved Saturday by an imperial edict which was promulgated so soon as the lower house acted on Premier Stolypin's ultimatum. The possibilityy of the house granting the government's demand for the suspension of the 55 Social-Democrats, members of the parliament, who are charged with conspiring against the present regime, was not being considered by either side.

The city has again assumed the appearance of an armed camp. The guard regiments Friday night left their summer camp at Krasnoye Selo for St. Petersburg and throughout the night detachments of infantry and cavalry have been arriving here.

The garrison of St. Petersburg is now double its ordinary strength, the guard regiments having been replaced by regiments of the line when the former went into camp. Long lines of transport wagons trundled through the main streets all Saturday morning, interspersed with occasional detachments of cavalry and infantry marching to their quarters. Otherwise, the center of the city bore its usual appearance, but the industrial sections literally bristled with the troops.

Every railroad station was occupied Friday morning by two companies of infantry, and two squadrons of cavalry and armored military trains were held in readiness, in view of the possibility of the outbreak of a railroad strike, and the reserves of all the regiments were confined to barracks.

All the railroad stations are watched by secret police in order to prevent the escape of the Social-Democrat deputies and revolutionary agitators, among whom a general exodus is expected to begin so soon as parliament is dissolved.

SCHMITZ OCCUPIES CELL.

Grafting 'Frisco Official Will Be Sentenced June 27.

San Francisco, June 17.—It was learned Friday night from an authentic source that Mayor Schmitz was in quarters at Branch County Jail No. 2, located near Ingleside.

Mayor Schmitz was convicted of extortion two days ago, and, Friday Judge Dunne denied him bail. He will be sentenced on June 27, and the maximum sentence for extortion in California is five years in the penitentiary.

Schmitz's counsel have given notice of an appeal for a new trial, and this will be argued at a later date. The mayor continues to insist that he has not been given a fair trial, and claims that he will yet establish his innocence.

Probing Charges of Peonage.

Charlotte, N. C., June 17.—The sensational charges of peonage, brought by the government against W. L. Smith and W. A. Berry, of the Franklin, N. C., and Tallulah Falls Railroad company, in course of construction between these points, was begun here Friday morning in the federal court, immediately after the noted Jones case was settled. This is the case Messrs. Thomas, of this city, and Wright, of Atlanta, secret service men, have been working upon for several months past. The alleged peons are about 20 negroes, hailing from South Carolina and Georgia. A number of them were taken about a year ago from Macon, Ga., to the construction camp in Macon county, North Carolina.

Annual Agricultural Report.

Atlanta, June 17.—The annual report of Commissioner of Agriculture T. G. Hudson was received from the printer Friday. It will be submitted to the legislature when it convenes. The report deals in a general way with the work of the department during the last year. The report shows that $70,476.26 was collected from fertilizer inspection during the year, of which approximately $40,000 was turned into the state treasury. From the inspection of oils there was turned into the treasury a total of $12,602.15.

ADMIRAL BOB EVANS' SHIPS IN MIMIC WAR

In Effect, Connecticut and Alabama Were "Destroyed."

ADMIRAL WAS GREATLY AMAZED

Had Not Been Apprised of War Game and Was Surprised When Guns of Forts Hamilton and Wadsworth Began Roaring.

New York, June 17.—The battleships Connecticutt and Alabama, under command of Rear Admiral Evans, were trebly "destroyed" while passing through the narrows on their way from Jamestown exposition to the New York navy yards.

Admiral Evans, who evidently had not been apprised of the war game which has been going on at the Narrows for a week past, was a much amazed man at the sudden roar of the guns at Forts Hamilton and Wadsworth. He rushed to the bridge of the Connecticutt and gazed first at one noisy fort and then at the other. Then one of his officers enlightened him about the sham "war" between the forts manned by regular coast artillerymen and national guardsmen and small boats manned by regulars with the hostile fleet for the purpose of testing the alertness of the guardians of the sea approach to New York.

The officers at Forts Hamilton and Wadsworth learned from Fort Hancock at Sandy Hook that two real battleships were passing in the Hook. It was jokingly decided to "destroy" them, and the fort's gunners turned out accordingly. The fog was dense and the Alabama got within 2,000 yards of Fort Wadsworth before being seen. The Connecticutt was about 500 yards astern. First the forts were fired at by the two battleships. Presently it was announced at the forts that the battleships had been sunk. Nevertheless, the 12 and 6 inch guns were used and the result was double destruction. Hastily the supposititious mines in the harbor were exploded and the Connecticutt and Alabama were annihilated. The war game is now ended and New York was saved from capture.

Fort Wadsworth was crippled and rendered useless according to the rules because a landing party of ten regulars from Fort Hancock led by Lieutenant R. H. Jordan, made its way through the Narrows, landed at Stapleton, stole into the fortress, seized the powder house and turned off the lights. This meant the fort was put out of action because there was no current to fire the guns.

Lieutenant Jordan is the hero of hte week's fighting, inasmuch as he proved what might be done to the city's defenses in real war.

BOY HID IN OLD MORTAR

When Spring Let Go and Hurled Him Into Apple Tree.

New York, June 17.—Young Henry Remsen was playing hide and seek near his home in South Norwalk, Conn., Thursday, and hid in one of the old spring guns or mortars, once owned by P. T. Barnum, the showman. He had hardly gotten himself comfortably fixed when he suddenly shot up in the air and landed in an apple tree near by. He was bruised but not seriously hurt.

The mortar responsible for Remsen's flight was one which Barnum used in his old "Human Cannon Ball" act. George L. Britton obtained the mortar and has used it as an ornament on his lawn. The boys in the neighborhood have used it for years as a plaything, but none of them heretofore had touched the powerful spring hidden in it.

Lightning Kills Man and Horse.

Birmingham, Ala., June 17.—A heavy electrical storm passed over the Birmingham district Friday afternoon, and Ike Wilson, a young man, was struck by lightning and instantly killed while riding along the highway. His horse was also killed. He came to Ensley recently from Decatur, Ala.

INJURIES PROVE FATAL.

Man Was Moving With Wagon When Knocked Off the Bridge.

Valdosta, Ga., June 17.—Information has reached here of a terrible and possibly fatal accident which happened at the river bridge, a few miles north of this city, at the Brooks county line.

A gentleman who was moving his family from Brooks county, carrying his household possessions and family on wagons, met on the bridge a heavy four-mule team belonging to the naval stores firm of Morgan, Shore & Co. In trying to turn out for the heavy wagon to pass the animals became frightened, and made a dash, throwing the lighter wagon, on which the man, his wife and little daughter were riding, over the banisters of the bridge and to the ground about 25 feet below. Articles of furniture in the wagon fell on the lady and little girl, the wagon on top of this, and the mule on top of the wagon.

One of the little girl's thighs was broken, and her mother sustained very serious injuries. How any of the party escaped with their lives is a miracle.

HAILSTORM WROUGHT HAVOC.

Crops on Farms Total Loss—Hailstones Killed Chickens.

Millen, Ga., June 17.—A terrific hailstorm, the path of which was 4 miles wide and ten miles long, has wrought havoc with growing crops in Jones county. The ten-horse farm of E. Daniel was completely destroyed, and a seven-horse farm of the Daniel & Palmer company is practically a total loss.

The hailstones killed grown chickens in many places, and went entirely through growing watermelons.

Conference of Students.

Asheville, N. C., June 17.—The southern students' conference, representing the college Young Men's Christian association of the southern states, held its opening session Friday at the Asheville Farm school. About 200 of the 350 delegates expected have already arrived. The sessions, which will be held daily for ten days, will be in charge of Dr. William D. Weatherford, chairman of the International Young Men's Christian association committee on the southern field work. The opening session was devoted to outlining the work of the convention. Mr. Robert E. Speer, of New York, secretary of the foreign mission board of the Northern Presbyterian church, will make several addresses to the delegates.

Saw Mill Men to Meet.

Fernandina, Fla., June 17.—The next meeting of the Georgia-Florida Saw Mill association will be held at this place, Tuesday, June 18. Quite a lengthy program of entertainment for the saw mill men has been arranged. The association on arriving at Fernandina will be given an excursion down the harbor. Returning they will be given a trolley car ride to Sea Beach. After dinner the business meeting of the association will be held, and the members will then be taken for a drive on the beach. Since the last meeting the supreme court has decided the celebrated freight rate case in their favor, and this also will bring more business before the body.

Bissett Found Guilty.

Birmingham, Ala., June 17—F. A. Bissett, Jr., was found guilty of murder in the first degree and his punishment was fixed by the jury at imprisonment for life. Bissett was formerly an engineer on the Louisville and Nashville railroad, and is well known, having been reared in Birmingham. About a year ago he shot and killed his sister-in-law, Mrs. Maggie Patterson.

Signed Alliance Treaty.

Rome, June 17.—It is stated that France has notified Italy that the treaty has been signed by France and Spain mutually guaranteeing the Mediterranean and Atlantic situation. A similar treaty has been signed by England and Spain. The two treaties are equivalent to a defensive alliance between Spain, Great Britain and France.

SENATOR MORGAN'S FUNERAL AT SELMA

There Were Numerous Noted Personages Present.

ALSO VARIOUS STATE OFFICIALS

Remains Were Accompanied to Their Last Resting Place by a Great Concourse of Citizens and Visitors—The Hearse Buried Under Flowers.

Selma, Ala., June 17.—The funeral of the late Senator John T. Morgan took place here at noon Saturday from the Church street Methodist church, where the dead senator for many years worshiped, and his body was laid to rest in Live Oak cemetery in a lot adjoining the tomb of William R. King, who died more than half a century ago while he was vice president of the United States. Thousands were present at the funeral, including delegations from every city in the state.

Many distinguished men were also on hand. Besides the congressional party who accompanied the body from Washington, there were present Vice President C. W. Fairbanks, Governor Comer, and the various state officials, together with every member of the Alabama congressional delegation.

The funeral train arrived promptly at 9 o'clock and was met at the union depot by a large escort, consisting of military, Confederate veterans, distinguished Alabamans and the population generally. When the train halted, Senator E. W. Pettus, the venerable colleague of the distinguished dead, was the first to alight. After he had assisted the Misses Morgan, daughters of the dead senator, from the train, they were escorted to carriages in waiting. The casket was then removed, and it was placed in the waiting hearse, a delegation of women covering it with flowers picked from Alabama's native soil. The flowers were tossed upon the casket until the doors of the hearse were closed and the solemn march to the church begun. The procession was headed by Mayor V. B. Atkins. Then came a band of music and next the military, followed by the confederate veterans, the various committees and distinguished visitors in carriages. As the procession was moving away, the congfressional delegations were escorted to carriages. In addition to these many persons rode in private carriages, and a delegation of negroes brought up the rear.

The services were simple and impressive, and every one evinced the greatest sorrow over the loss of this distinguished statesman and citizen of Alabama.

WOMAN ADOPTED A GROWN MAN

Legality Is Upheld by the Supreme Court of Alabama.

Montgomery, Ala., June 14.—The supreme court has upheld the adoption of a man 26 years years of age. In the face of a fight by members of her family to prevent said son from becoming the inheritor of her property.

A Mrs. Sheffield, of St. Clair county, adopted R. B. Franklin, who was 26 years of age, that he might be her heir. At her death members of the family resisted the will on the ground that a man so old could not be adopted. The court held, however, that the word "child" in this case meant relationship and that the woman had a legal right to adopt and the man so adopted became her son. In looking up the records it was found that in Massachusetts a man adopted his uncles and the law upheld him in it.

1,500 Steel Workers Discharged.

New York, June 17.—Receivers of Milliken brothers corporation which failed on Monday have decided to close the steel mill of the $7,500,000 plant on Staten Island, and have in accordance with this determination discharged 1,500 steel workers. About 7,000 persons are dependent on the earnings of the discharged men, and as the reopening of the mill is problematical, most of the workers and their families will go to other steel centers to secure employment.

SUMMER NORMAL OPENED MONDAY

State Superintendent Holloway and Others Made Good Talks.

ATTENDANCE WILL BE LARGE

School Will be Under Direction of Dr. W. F. Yocum, Who Has a Splendid Faculty—Session Will be Held at Gainesville Graded and High School.

The Summer normal school for 1907 opened at the Gainesville Graded and High School building Monday morning with a large number of pupils in attendance, coming from every section of the State.

The meeting was opened with prayer and an address by Rev. T. J. Nixon, pastor of the First Methodist church.

Mr. Nixon was followed by Dr. J. L. Kelley, superintendent of Public Instruction of Alachua county, who, in his usual clever manner, welcomed the teachers to Gainesville in behalf of the school board, and bid them welcome to his office at all times. Dr. Kelley is a fine and pleasing speaker, and his remarks were received with a great deal of appreciation.

Hon. W. M. Holloway, State superintendent of Public Instruction, was present, and made a few interesting remarks. He complimented the teachers as a whole, remarking that Florida enjoyed the reputation of having the best teachers on an average in the South. He hoped and believed that this would prove one of the most beneficial normals ever held in the State.

Dr. Andrew Sledd, president of the University of Florida, made a nice talk, which proved quite interesting. Dr. Sledd welcomed the students on behalf of the University, assuring them that he was glad to have them here, and offering any assistance it was possible for him to give.

Dr. Yocum, the principal, made a few remarks on the normal and its work. He is one of the leading educators of the State, and proposes to make a good showing of this year's normal.

J. F. Bunch was present, and in behalf of the Baptist Young People's Christian Union extended a cordial invitation to the students to attend a reception at the home of Hon. J. M. Rivers from 8 to 10 o'clock Tuesday evening, which was accepted with thanks.

The normal starts off with the best prospects, and it is believed that it will prove one of the most successful in the history of the State. Indications are that it will be largely attended and before the end of the term there may be 250 students enrolled.

The sessions will be held in the Gainesville Graded and High School building, being more convenient to the faculty and students

NEWS OF CITY AND COUNTY CONDENSED

Friends of C. E. DeLand will be glad to learn that his condition is much improved. Mr. DeLand has been ill for several days.

Mrs. R. J. Holly and children left yesterday for Orlando, where they will make their future home, Mr. Holly being connected with The Reporter-Star in the capacity of editor and manager. While friends here regret very much their departure, they wish them much happiness in their new home.

Friends of T. B. Stringfellow and family, formerly of this city but for the past five years residents of Jacksonville, will be glad to learn that they will return here, and make this their future home. They have rented the palatial Fowler home on Alachua avenue, East Gainesville, where they will reside.

Mrs. Chas. Lamon and children have arrived in the city from Washington, and will make their future home here. Mr. Lamon was recently assigned by the United States general land office to a clerkship in the local office here. He is well pleased with the city, and it is hoped that his family will be also. They will reside at 709 E. Magnolia street.

Prof. J. H. Owens, for the past term principal of the Martha Perry Institute at Rochelle, was in the city for a few hours Sunday. Prof. Owens is now making his headquarters at White Springs with his wife and baby. He has secured a position as principal of a summer school at Winford, Hamilton county, which will open in a few days. Prof. Owens is one of the most competent teachers in the State.

O. and G. Petre have returned from Palatka, where they have been for the past four or five days. The former has secured the contract for sidewalks in Palatka, which embraces several miles. The construction is to be of granolithic material, the same as used on the sidewalk paving of Gainesville. Mr. Petre is an expert in this direction, and it goes without saying that the work will prove entirely satisfactory when completed.

One of the most attractive window display advertisements seen in this city is that at Phifer Bros., which is announcing the season for purchasing outing goods. The background, which is the design of Mrs. M. Perry, is most original, comprising a full-rigged sloop yacht ready for a cruise. The sky is of light blue cloth, artistically arranged, and altogether the effect is something worthy of more than passing observance, resembling a huge painting a few feet distant.

COLORED WOMAN INSANE.

Evelyn Williams of High Springs to Be Taken to Chattahoochee.

Evelyn Williams, a colored woman of High Springs who has been regarded very highly by both the white and colored people of that town, was brought to Gainesville Monday, having been adjudged insane by a committee. The woman is desperate, and her condition is regretted by her friends.

An attendant is expected today or tomorrow to take the unfortunate woman to the hospital for the insane at Chattahoochee.

There Are Few

People who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. V. C. Simpkins, Alba, Texas, writes: "I have used Herbine for Chills and Fever and find it the best medicine I ever used. I would not be without it. It is as good for children as it is for grown-up people, and I recommend it. It is fine for La Grippe." Sold by W. M. Johnson.

WATER COMMITTEE DRILLING WELLS

The Situation at the Waterworks is Becoming Serious.

THE SPRINGS ARE DEFICIENT

It is Impossible to Supply the City With Water for All Purposes, but It is Hoped With Additional Wells to Have Sufficiency.

Realizing that the water supply of Boulware Springs, which is the source from which Gainesville gets its water, is low and inadequate, the City Council, through the water committee, is endeavoring to remedy the deficiency by sinking wells.

Contractor Lewis, one of the most competent well drillers in the State, has been working for several days on a well at Boulware Springs, and is making good progress. He has reached a considerable depth, and expects a good flow when water is finally reached.

The well now being sunk is six inches in diameter, and will make a good yield when completed. It is understood that three wells will be drilled, which should be ample to supply the demand, considering the supply being furnished by the flowing springs.

This work is being done under the supervision of E. E. Cannon, chairman of the water committee of the City Council.

AN INTERESTING WEDDING.

Two Aged and Popular Colored People Were Married at Hague.

One of the most notable weddings which has been held among the colored people in this county occurred at Hague Sunday, the contracting parties being "Aunt" Lizzie Wells, about seventy years of age, and Alexander Reaves, who will soon reach his seventy-fifth birthday.

These people are among the oldest residents of the section in which they reside, and are of the highest standing among the colored people, being of ante-bellum descendents. The bride is taking unto herself the third husband, and is the mother of twenty-two children, while the groom has been married twice.

PROF. HOLLOWAY HERE.

State Superintendent Pays Visit to His Friends in Gainesville.

Among the prominent visitors to Gainesville within the past two or three days was Hon. W. M Holloway, State Superintendent of Public Instruction, who was en route to his home at Tallahassee from Brooksville, and who stopped over to attend the opening of the summer normal.

Prof. Holloway's numerous friends here were glad at an opportunity to meet him again, and he expressed himself as being pleased at an opportunity to stop. He is looking well, and indications are that the old red hills of the State capitol agree with him.

Prof. Holloway was present at the opening of the summer normal in the morning, leaving Gainesville on the afternoon train for home.

Mr. Harper Buys Property.

A. R. Harper, the piano dealer, evidently has faith in Gainesville and her future, as he has recently purchased through A. O. Steenburg two handsome lots in East Gainesville, fronting on North Roper avenue.

These lots are each 88x135 feet, and are among the most desirable building lots in that section of the city. It is not known at present whether Mr. Harper intends to build or not, but it is supposed that he will erect a nice home.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

JOHN SMITH TO PRISON FOR LIFE

Jury Found Him Guilty of Murder, But Recommended Mercy.

OUT ONLY FEW MOMENTS

Smith Killed His Step-Father in Row at Clark in December of the Past Year, and Has Since Been in Alachua County Jail.

"We, the jury, find the defendant, John Smith, alias John Martin, guilty of murder in the first degree, and ask the recommendation of the mercy of the court."

That was the verdict of the jury, of which J. H. Jarvis was foreman, in the case of the State of Florida vs. John Smith, alias John Martin, charged with the murder of his step-father, Edward Jordan, near Clark, on December 3, 1906.

The defandant took the judgment coolly—in fact, he appeared to be perfectly satisfied with the finding of the jury, since his neck has been saved.

The defendant was arraigned in the morning and pleaded not guilty, whereupon a jury was called and sworn and the testimony began. The entire day until late in the afternoon was taken up in testimony and argument, the case going to the jury at a late hour. It required only a short deliberation of the jury, however, to bring in the verdict as stated above.

There was no other business of importance transacted by the court during the day, and upon the rendering of this verdict the court adjourned until 9 o'clock this morning.

This morning the case of the State vs. Wm. Thomas for the murder of Maxey Scofield at Willeford will be taken up. There will be many witnesses in this case, and the indications are that it will require the remainder of the week.

FAILED TO GET MEETING.

President Thomas Was Present, But Board Members Did Not Come.

It seems to be a foregone conclusion that the people of Gainesville do not desire to hold a celebration on the Fourth of July—the nation's birthday—as no one responded yesterday to the call of Mayor W. R. Thomas, president of the Board of Trade notwithstanding the fact that the notice calling a meeting for Monday appeared in this paper for two days.

Mayor Thomas states that he was present at the appointed hour, and that the only citizen to meet him was Attorney Ferd Bayer, who appeared anxious for a celebration, and who was willing to devote his time in the matter of furthering the interest in that direction. Mr. Bayer, who was treasurer of a committee on a former occasion, had with him his report and about $11, which had been left over from the last celebration, which he was ready to turn over to anyone who was willing to go to work in organizing for an observance of the Fourth this year.

It is to be regretted that nothing can be done in this direction, as the day could have been made one of great enjoyment to the people, as well as profit to the merchants.

Diplomatic Action Not Warranted.

Tokio, June 17.—Evening—It was been learned that foreign minister, Viscount Hayashi, at a conference on the American question, held Friday with the elder statesmen and ministers, announced that the last incident reported in connection with the attacks upon Japanese residents in the state of California was not grave enough to warrant diplomatic action. The views of both governments are said in accord, and the trust is expressed that the federal government at Washington will furnish a speedy solution of the question at issue.

Convention Elects Officers.

New York, June 17.—The surgical instrument manufacturers of the United States and Canada who have been holding a convention here since last Wednesday, wound up Friday. PLEASING HUMOR.

Editor Davis is a Candidate on a Unique Platform.

Jeff L. Davis, editor of The White Springs Herald, writes as follows to The Times-Union:

"Please announce that I am a candidate for State house janitor before the people of our dearly beloved State. I want this office, not so much on account of my competency, but because my family connections are in bad financial condition.

"If elected, and I want the job, I will appoint my son chief janitor at a good salary, then my son has a sister who will be clerk in the office at a good salary. Not having much to do they will apply, naturally, for every vacant clerkship at the capitol until both are drawing double salaries from the State.

"Then my son has an aunt-in-law, or some female relative of the family, who can write for the newspapers and I can get her a fine job that will easily place her in the front ranks of Florida's favorite feminine felicitous fairies. She will also want two jobs besides writing for the newspapers. Of course, as janitor I would have charge of the grounds surrounding the capitol, and see to their glory and loveliness. I would have an Adams' apple adorn the center, without a Beard, because I don't know whether the apple had a beard or not, and the chances are against it. Next I would have a beautiful tree with its lovely foliage and its Burr-s, and I'd know it was Dunn before close attention had ceased.

"Of course I'd have to have a Broome to sweep clean, and a Buckman to use it properly and conscisely. I wouldn't want a shrill whistle to wake up the employes, but would take a Crill one, which might not wake up the citizens of Tallahassee, but I would let them know all were there on time. I'd plant a Palm-er tree for its beauty, even if I had to Gil-Christ to get it and ship via Jennings. These are beautiful trees and would adorn the grounds ever so much.

"I would not let the public Trammell on the grounds, nor Crane their necks too much viewing the scenery. I'd make C-room for Bar-cus—and he's willing—so that it wouldn't be so crowded at the capitol. I may think of other needed improvements at the capitol, which I may make known later on, and will notify the good people of the State. In the meantime, reserve your votes for me for janitor.

"JEFF L. DAVIS."

NEWS FROM SANTA FE.

Relatives of Eli Futch Will Meet in Annual Reunion.

Santa Fe, Fla., June 17.—As it has been the custom for years in the past, the children, grandchildren and great-grandchildren of Eli Futch, or Grandpapa Futch, as he is called, will meet in a family reunion on his birthday, and as he is about to reach another mile post of time, which but few will reach in this life, on the 25th of June all of the above mentioned will meet as usual at the residence of his son-in-law, W. M. Blitch, at Santa Fe, for the purpose of doing honor to him who is the idol of his children.

The warehouse here has been remodeled, repaired and fitted out and is ready now for an agent. It will be but a few days now until Santa Fe will be a regular station, to the delight of its progressive citizens.

In addition to our already growing burg we have established here a branch of the Brown-Jennings Hardwood Co., who are working a large crew of hands getting out hardwood. There is almost an inexhaustible supply of hardwood here of the finest quality.

Capt. E. Lenon of the Wade Wood Co. has a contract and is running the woodrack at this place. He is a pleasant gentleman and makes friends wherever he goes.

Watermelons are in the market here, to the delight of the average coon. Their "similes" can be heard as they devour the red meat of an early Cob Gem.

The passage of the pension bill taking in all of those that in the sixties left their heart-broken loved ones to defend their homes in the midst of carnage and death, seems to meet the approval of all patriotic citizens here. The pension bill should and can be made a roll of honor now if those who are entrusted to carry out the law will use discretion.

The farmers here have the right to rejoice, as the cotton crop is the best in years at this writing. All other crops are suffering greatly for rain, and unless it rains soon but little corn and other crops will be made.

Santa Fe river is lower than it has been for years. Dogfennel weeds have taken the place of water on the bed of the river in many places.

It has been reported to the writer that some persons, in disregard of the law, are dynamiting the river and killing fish, which should not be allowed.

The health of this community was never better. The doctors complain that it is distressingly healthy.

SULPHUR BRINGS HEALTH.

Purifies the Blood and Clears Up the Complexion.

Everybody needs to take sulphur at this season. Nothing like it to purify the blood, clear up the complexion and remove "that tired feeling." But the only way to take it is in liquid form. Hancock's Liquid Sulphur taken internally is the best Spring tonic. Applied externally Hancock's Liquid Sulphur quickly cures Eczema, Tetter, and all Skin Diseases. Hancock's, the only Liquid Sulphur Ointment, removes Pimples, Blackheads and Sores, and gives a beautiful soft, velvety skin. Your druggist sells it. It cured Edward D. Herring of Frederick, Md., of a bad case of Eczema, and he writes: "My face is as smooth as an infant's."

Decision in Campbell Will Case.

Honolulu, June 17.—In the Campbell will case, it was decided, Friday that the order for the distribution of the estate to the trustees of the children of the Princess Kawananakoa and for the benefit of Mrs. Walter MacFarlane, dates from the filing of the final accounts of the administrators.

Chinese Troops Engage Insurgents.

Hong Kong, June 17.—Reports from Wei Chou say that two regiments of Chinese troops recently engaged the insurgents at Patszzelan, with the result that the latter were dispersed. The regular troops lost one officer and twenty soldiers killed and had a number of wounded.

PLANS HERE FOR PUBLIC BUILDING

Postmaster Lynch Announces They Are Ready for Inspection.

WILL BE A FINE BUILDING

Bids Are Being Advertised For, and Those Desiring to Bid May Have an Opportunity—Building to Be a Modern One in Every Respect.

The plans and specifications for the proposed postoffice and United States land office building have been received from the supervising architect at Washington, and Postmaster Lynch announces that same may be seen upon application at the postoffice.

As will be seen by the advertisement running elsewhere in The Sun, bids are asked for the construction of this building, and those desiring may bid until July 19, when all bids will be opened and the contract will be let to the lowest and best bidder.

This building, which will be located on the old Oak Hall property, foot of East Main street, will be a magnificent structure, the Government having appropriated $60,000 for its construction. As the plans specify, the building will be two stories, with a basement. The lower floor and basement will be used by the postoffice department, while the upper floor will be devoted to the land office. Every convenience is provided for, and altogether the building, when completed, will be a credit to the city and the State.

It is estimated that the building will be completed within nine months after the contract has been let.

NEWBERRY IS PROSPEROUS.

Dr. Howell and Other Citizens Propose to Rebuild at Once.

Dr. E. B. Howell of Newberry is in the city. Dr. Howell was a heavy loser in the recent Newberry fire, having lost a modern, up-to-date building containing two store-rooms.

He is not discouraged, however, and will rebuild at once. He has placed an order for material, and will this time erect a handsome brick building, 50x100, with sixteen rooms on the second floor for sleeping purposes.

Dr. Howell states that the property owners of Newberry are preparing to erect much handsomer and more substantial buildings in the place of those burned. In addition to his own building, H. A. Pickett is preparing to erect a brick store 25x60 feet, Postmaster A. C. Reed will build a handsome block of brick, and Dr. J. F. Ruff will replace his former building of artificial stone. This building will contain four stores of good dimension, which it is said have been leased already.

Mrs. Lillie Kitchen, another property owner who lost heavily by the fire, proposes to at once rebuild with brick. Mrs. Kitchen's building will be modern in every way, and will contain two large store-rooms.

In all there are thirteen store-rooms now under contemplation in Newberry, and when the town is rebuilt it will be seen that the fire, though quite a misfortune, proved a good thing.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

SCALY SORES AS BIG AS PENNIES

Covered Whole Head and Neck After an Attack of Measles—Hair All Came Out—Doctor's Treatment Had No Effect—Suffered 6 Months

CURED IN 3 WEEKS BY CUTICURA COSTING $1.50

"After having the measles my whole head and neck were covered with scaly sores about as large as a penny. They were just as thick as they could be. My hair all came out. I let the trouble run along, taking the doctor's blood remedies and rubbing on salve, but it did not seem to get any better. It stayed that way for about six months; then I got a set of the Cuticura Remedies, and in about a week I noticed a big difference, and in three weeks it was well entirely and I have not had the trouble any more, and as this was seven years ago, I consider myself cured. I used one bottle of Cuticura Resolvent, one box of Cuticura Ointment, and two cakes of Cuticura Soap. I think it a splendid medicine, and I recommend it whenever I can. Mrs. Henry Porter, Albion, Neb., Aug. 25, 1906."

Widow of Battleship Hero Weds.

New York, June 15.—It was learned Friday that Mrs. Adele M. Anthony of Penn Yann, N. Y., who was married to State Treasurer Julius Hauser Wednesday night, is the widow of William Anthony, the former marine of the United States battleship Maine, whose coolness and devotion to duty attracted so much attention when his ship was blown up in Havana harbor. Anthony was married to Miss Adele M. Blancett soon after his return from Cuba, but when adversity came Mrs. Anthony was compelled to go to the home of her parents. Anthony soon afterwards committeed suicide in Central park here.

Strike Paralyzing Cigar Industry.

Havana, June 17.—The cigarmakers' strike is paralyzing the industry. The most recent compilation of statistics by experts shows a rapid decline since February 23, the date of the beginning of the strike. The total number of cigars exported in five months this year was 63,807,000 as against 105,111,000 for the corresponding months last year. The value of the exports during this period was $4,277,000 compared with $6,632,000 during the similar period of 1906.

Queer Architectural Feat.

New York, June 17.—A queer feat in architecture has been begun at the Singer building, a skyscraper at Liberty street and Broadway. Its top is to be sliced off and three extra stories are to be sandwiched in between the seventh and eleventh floors. A large force of men will work night and day on the job. The undertaking will be confined to the original corner building, which will be part of a new forty-one story structure, the tallest office building in the world.

Negro Hanged Second Time.

Jacksonville, Fla., June 17—Alfred Sargent, negro, was hanged here on Friday for the murder of John Skeels. He confessed, collapsed, fainted and had to be dragged to the gallows. After hanging five minutes, it was found he was not dead, and he was hauled up and given a second drop.

TRAGEDY IN TEXAS.

Controversy Over Brownsville Affair Leads to Killing.

Brownsville, Tex., June 17—Samuel P. Wreford, a well known commission merchant of Borwnsville, was shot and killed Friday by Jesse S. Thornham, a stepson of Captain William Kelly, president of the First National bank of Brownsville.

The tragedy was an indirect outgrowth of the alleged outrages on Brownsville, by the negro soldiers, on August 14, last. Captain Kelly in testifying before the senate committee on military affairs at Washington recently regarding the raid on Brownsville, referred to Wreford in derogatory terms. Wreford retaliated by circulating a dodger denouncing Kelly bitterly and accusing him of having led the negro soldiers in a raid on Bagdad, Mexico, at the mouth of the Rio Grande river, just after the close of the civil war. The tragedy followed. Wreford was coming home from Matamoros, and was half a block from his house, when he was shot. He walked to his house and fell in a dying condition. Before expiring, he made a deposition saying "Jesse Thornham killed me."

Thornham surrendered to the police, saying he had shot Wreford. He is in jail, and refuses to make any further statement.

Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c and $1.00. Sold by W. M. Johnson.

The indications point to a dozen or more "county division" campaigns during the primaries next year, the principal ones being waged in Dade, DeSoto and Hilsborough counties.

Q. E. Peacock has succeeded J. C. Thompson as editor and publisher of The Dunnellon Advocate. The Sun wishes the new editor the success his sprightly journal deserves.

It is reported that an effort will be made to prevent the payment of the $30,000 appropriated by the Legislature to aid in the holding of the State fair at Tampa during the next two years.

Hon. L. C. Massey, who has ably represented Orange and Osceola counties in the State Senate for the past four years, has been appointed special counsel to the railroad commission. He is one of the ablest attorneys in the State and the commissioners made no mistake in his selection.

While Mr. Albert Jennings of Pensacola has not formally announced his candidacy for Governor, there is not the least doubt that he will be in the race. He says he is now too busy with his personal affairs to enter upon a campaign, but at the proper time, he intimates, he will announce his candidacy and devote his entire time personally to his campaign. He has ardent supporters throughout the State, but is especially strong in West Florida, which section, it is claimed by those in a position to know, he will carry almost solidly.

The bill introduced during the past session of the Legislature by Senator Beard to protect the gopher was taken as a joke by those who do not realize the importance of the gopher to the people of Pensacola and St. Augustine. In those cities the gopher is considered by many as the finest relish to be had. They make the finest kind of soup, while "gopher gumbo" is a dish fit for the gods. Gophers command fancy prices in those places and their threatened extermination is a serious matter with those acquainted with their value. Our Pensacola friends, however, could be bountifully supplied from Alachua county, where his gophership is regarded not only with scorn, but as a nuisance.

The Orlando Sentinel, which was suspended several years ago, will be revived, concerning which The Tampa Tribune says: "Josiah Ferris, a newspaper man of twenty-five years' experience, makes announcement that he has bought the plant of The South Florida Sentinel of Orlando, which suspended publication some years ago after many years of signal usefulness, and will renew its publication at an early date. Mr. Ferris has secured the services of C. E. Howard as editor of The Sentinel, Mr. Howard having recently left The Reporter-Star, in which journal his writings won great admiration throughout the State. The Tribune awaits the appearance of the first number of The Sentinel with impatience; we will gladly welcome it among our exchanges and wish a world of successful achievement to its capable manager and distinguished editor."

WASHINGTON NEWS.

Japanese Affair Purely Political in Both Nations.

(Special Correspondence.)

Washington, D. C., June 17.—This city presents a constant drama of moving political pictures and the lightning changes are fostered by the emulation of the newspapers and their correspondents for somethng new. This week the Japanese question is on the boards and it has reached the stage of a semi-official threat that no apology can be expected from the United States for what is a purely state affair. The Japanese restaurant keeper of San Francisco who was no doubt abused and his restaurant wrecked by a mob must seek reparation in the local courts, is the position of the Administration. But back of all this is the determination of Japan to demand the same treatment for her subjects who desire to settle in the United States as is granted to the people of other nations.

The real issue is a political one both in Japan and here, for it so happens that a national election occurs next year in both countries and the party out of power in Japan seizes the opportunity to show that the party in power is so unpatriotic as not to protect its citizens. That the Roosevelt administration has made a mess of the original dispute about admitting the Japanese to the public schools in San Francisco is plainly shown by its calling to Washington the grafting mayor of San Francisco and the corrupt members of the school board and making a bargain with them to modify the school regulations for the purpose of mollifying the national pride of the Japanese. It is a tempest in a Japanese teapot and would soon subside if our strenuous administration will allow it to.

The perennial question of party politics as to who will be the nominees of both parties for President has received an impetus by the endorsement of Senator Knox by the Republican State convention of Pennsylvania. He is evidently brought forward by the faction of his party who are determined to prevent tariff reform, or even reciprocity. This insures a squabble over candidates and also on the tariff plank in the Republican national convention that will be difficult to compromise without losing the votes of those Republicans who really believe in tariff reform.

The movement in the Democratic party for the nomination of a Southern man has been very generally taken up in the South and nearly every Southern State has presented one or more favorite sons for consideration, of whom Senator Daniel of Virginia has so far received most general attention. Such a free, fair and open discussion of who is the most available candidate is a bright omen for victory. There is no doubt that a majority of Democrats favor the renomination of Mr. Bryan, but many who have been his most ardent supporters in other campaigns fear that he might again be defeated and they feel that another defeat would be disastrous to him and the party. The question that Democrats must settle is therefore one of expedience as to who is the most available candidate under all the circumstances. There will be no dispute about the platform, for there is general unanimity of fundamental principles and not likely to be much controversy on the stand the party must take on the issues that have arisen during the past four years that are open for settlement in the future. Democrats of all shades of opinion admire Mr. Bryan, they praise his honesty of purpose and the only question they want answered is, can he be elected and what States can he fairly be expected to carry? ROBERT MILLER.

NOT AN ORATOR.

J. O. LaFontisee of The Fernandina Record, who is exceptionally well posted regarding public men of this State, says:

"Of all the announcements so far made for Governor, Senator, Railroad commissioner, etc., there is not one man in the crowd, excepting Frank Adams, who can be classed as an orator. Albert Jennings is a plain fellow, a good reasoner, but not a good speaker. Hudson Burr might pull off something committed to memory in fairly good shape. Albert Gilchrist has always been able to please himself more than his audience with his attempt at oratory and we can see but little in this line from any of the others who have been mentioned. During the last campaign there was Davis, Mays and Ellis, three of the best orators in this State, and they lent to the campaign a degree of entertainment, if not genuine interest. If this aggregation referred to in connection with the next campaign is to be all, then the State executive committee ought to hire a brass band or minstrel to accompany the speakers on their tours of the State in the interest of amusement."

Along with the announcement of the Public Land Conference in Denver, the news comes from the West that the sheep and cattle war has again broke out, this time in Wyoming. People in the South not as a rule know what the sheep and cattle war is, but it is a serious enough business for the country involved, and for fatalities and destruction of poverty it is a little worse than a Kentucky mountain feud. It comes over the eternal dispute between the sheep and cattle men as to the rights of the range. Cattle cannot live where sheep have traveled, and many thousands acres of the best grazing land of the West are annually reduced to desert by the inroads of sheep men on the public range to which they claim to have as much right as the cattle men. The clash of the two interests is inevitable, and it has resulted in the killing of many men this season in Wyoming, and over 4,000 sheep. One phase of the very land policy of the administration which the Denver conference is meeting to combat, would be the leasing of the grazing range and the elimination of this death-spreading feud. The President is sending five Federal officials, including the Secretary of the Interior, to Denver to talk before the convention, and win them over if possible to his way of handling the Western land question. One would think that the recrudescence of the sheep and cattle war should be a good argument for following his advice.

THE POCKET SAVINGS BANK EPIDEMIC RAGES FIERCELY ....IN GAINESVILLE....

Beneficent epidemics are scarce, but such a one has struck Gainesville, and people of every station and occupation have the fever.

It is most interesting and instructive to study the constantly changing line of applicants for Pocket Banks as it files through The Sun's business office. There is the mother, bringing her daughter with her and securing a bank for the girl, another for herself, and inquiring anxiously whether she may have another for the boy who is at work. She receives it promptly.

Boys come—some are steady, serious-faced chaps who have begun to think on their own account, and who ask questions about the operation of the scheme which show the results of rubbing up against the world.

Then the High School girls and boys, gay and active, while the workman and business man "slip in" during the noon hour to get a bank for the boy or girl at home, after asking one or two leading questions to make sure there is no joke about the 25 cents.

.....THE PLAN IN OUTLINE.....

A HANDSOME NICKEL POCKET SAVINGS BANK and an order on

PHIFER BROS., BANKERS

Good for an additional 25 cents when a deposit of one dollar or more in cash is made, will be given to everyone who avail themselves of this opportunity. Make an investigation and you will never regret it.

PROGRESS OF HAYWOOD TRIAL.

Prosecution Going Through Multitude of Incidents in Orchard's Story.

Boise, Idaho, June 17.—The prosecution in the case of William D. Haywood, charged with the murder of Frank S. Steunenberg, is going through the multitude of incidents in the story told by Harry Orchard in addition to an alleged conspiracy that involved the slaughter of a former governor of Idaho, who, as a young man, had in the latter years of his life opposed the methods of the Western Federation of Miners.

Orchard's confession laid the foundations. The chapters run through three or four states, but in California, Colorado and Idaho the chief interest lies.

The California incident—and incidents in this story mean murder—began with the bombs. The state has brought incontrovertible evidence that Orchard was there at the time Fred Bradley was injured by an explosion at his residence.

Orchard's story of the Vindicator mine has been verified by men working in the mine at the time. For the first time the connection of Haywood with the cases of murder alleged by Orchard was testified to by other witnesses Friday when the arrest of Steve Adams at Ogden was confirmed. The evidence was that Adams telegraphed to Haywood for money. Orchard had said that prior to his going to California to "get" Bradley, Haywood told him that he had sent Steve to San Francisco to kill Bradley, but Steve had got into some trouble at Ogden and Steve told him that Haywood had sent him money by telegraph. The first witness on the stand Saturday was the cashier of the First National bank of Denver.

Haywood did some of his banking business there, and it well known to the officers of the bank and this documentary evidence is believed to be some of the most important that they have to offer.

But the state is said to be in possession of a quantity of documents to support Orchard's story at different points.

San Francisco Purged of Grafters.

New York, June 17.—Former Mayor James D. Phelan, of San Francisco, who is at the Waldorf-Astoria, is quoted in an interview today as saying that San Francisco will be good for ten years as a result of the graft crusade. Mr. Phelan said: "San Francisco will have good government for ten years, or until men forget the lesson. Some one has said that memory takes a vacation every ten years. We have shown the rest of the world that we mean business, and the moral effect of our probe on the entire country is bound to have a beneficial effect."

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., of Cincinnati; Prof. John M. Scudder, M. D., of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such *professional* endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable.

A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

HAGUE PEACE CONFERENCE.

Russian Statesman on Universal Peace and Disarmament.

The Hague, June 17.—M. Nelidoff opened the peace conference Saturday by affirming that universal peace and disarmament were unattainable. The deliberate utterances of the Russian statesman, although pessimistic to the extent referred to, were hopeful when later he said he believed that a better method for the judicial adjustment of disputes was possible, even though all conflicts between nations were no more avoidable than conflicts between individuals.

In the course of his address M. Nelidoff greatly pleased the American delegates by the high tributes which he paid to President Roosevelt and Andrew Carnegie, not mentioning any other countries or rulers.

S.S.S. REMOVES BLOOD HUMORS

When the blood is pure and healthy the skin will be soft, smooth and free from eruptions, but when the blood becomes infected with some unhealthy humor the effect is shown by rashes, eruptions, boils and pimples, or other disfiguring and annoying skin disease. The skin is provided with countless pores and glands which act as a drainage system to rid the body of impurities through the perspiration that is constantly passing through these little tubes. There are other glands that pour out on the skin an oily substance to keep it soft and pliable. When the blood becomes filled with humors and acids these are thrown off through the pores and glands, burning and irritating the skin and drying up the natural oils so that we have not only Acne, Eczema, Salt Rheum, etc., but such dry, scaly skin affections as Tetter, Psoriasis, and kindred troubles. The treatment of skin troubles with salves, washes, lotions, etc. is not along the right line. True, such treatment relieves some of the itching and discomfort and aids in keeping the skin clear, but it does not reach the real cause of the trouble, which are humors in the blood, and it can therefore have no real curative effect on these skin affections. S. S. S., a gentle acting and perfect blood purifier, is the best and quickest treatment. It goes down into the blood and removes the humors, fiery acids and poisons from the circulation, cools the overheated blood, and by sending a fresh stream of nourishing blood to the skin permanently cures skin diseases of every character. S. S. S. is made entirely of health-producing roots, herbs and barks, and is an absolutely safe remedy for young or old. S. S. S. cures Eczema, Acne, Salt Rheum, Tetter, Psoriasis, and all other disagreeable and unsightly eruptions of the skin. Special book on Skin Diseases and any medical advice desired furnished free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.
